DESCRIPTION

A powerful phosphoric acid based cleaner for removing soap scum, mould and mildew, cement, latex resin contaminants from tiles, grout, concrete, brick, stone, slate and masonry surfaces

FEATURES

- Fast acting, deep cleaning
- Does not etch or damage surfaces
- Dilute with water for normal cleaning

COVERAGE (Approximate)

10-15m²/L undiluted

SPECIFICATION

The tile and grout cleaner shall be a phosphoric acid based cleaner which does not etch or damage the surfaces such as Kemclean manufactured by Construction Chemicals and shall be applied in accordance with the manufacturer's instructions.

TEST AREA

Before using the product, test to ensure that the surface is not affected during cleaning. Apply a few drops in an inconspicuous area. Leave for 15 minutes and rinse well. Dry and examine effect.

TILE AND GROUT CLEANING

Saturate grout joints with water. Dilute Kemclean 50/50 with water and apply with a sponge or scrubbing brush. Allow to soak for 4-5 minutes and wash residue away with plenty of clean water.

CONCRETE, BRICK, SLATE, STONE OR MASONRY AND HEAVY STAINS

Apply Kemclean directly to the surface and scrub with a brush or broom. Allow to soak for 5-10 minutes. Scrub again and wash residue away with plenty of clean water.

CAUTION

Keep out of reach of children. Avoid prolonged contact with skin. Apply in a well ventilated area. Wear gloves during application. Avoid prolonged exposure with porcelain surfaces. Do not use on polished marble, bronze or metallic surfaces.

SHELF LIFE

2 years
