Kemgrip

Liquid set accelerator for screeds and cement mixes

Description

A liquid designed to accelerate the set time of any cement based product.

Uses

A set accelerator for concrete, cement, mortar, Portland cement screeds and premixes of **Kemgrip**.

Features

- Rapid set & high early strength
- 7 day strength is obtained in 48 hours
- Ready to use

Specification

The liquid accelerator shall produce the 7 day strength in 48 hours, such as **Presto** manufactured by **Construction Chemicals** and shall be applied in accordance with the manufacturer's application instructions.

Surface Preparation

Ensure surfaces are sound, dry and free from movement, oil, grease, wax, dust and any curing agents.

Application

Use in place of mix water, **do not** dilute.

Set Time

Approximately 2-4 hours dependant on temperature and site conditions.

Precautions

Presto must not be added into cement in contact with steel reinforcing bars, metallic floor hardeners or grouts. Clean off spills immediately.

First Aid

Eyes - Hold eyes open, flood with water for at least 15 minutes and see a doctor.

Skin - If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

Ingestion - If swallowed, induce vomiting using Ipecac Syrup (APF) if available.

Shelf Life

1 year
